NEW TREND in Examining Rare Coins

If you have recently attended rare coin auction sales, you may have observed that the latest trend in examining rare coins is in a darkly lit room and a powerful single source of lighting. The purpose behind this type of viewing is rather simple. By eliminiating outside light sources and allowing a single powerful light source to provide the lighting, we find that glare is no longer a problem and the coin can be maneuvered to provide a more controlled vision.

The interesting feature here is that this manner of viewing coins is being utilized by several of the major grading laboratories and thus by utilizing the same principle one is more likely to be able to examine a coin and better predict how the coin will be graded if sent in for a certificate.

We are pleased to announce that Superior Stamp & Coin is distributing both the light source and the magnifier which are being used to grade coins by some of these grading laboratories. It has been no secret within the trade that our line of halogen lights and magnifiers have been great sellers. We are pleased to provide this listing of our more popular products. We have placed an asterisk beside the two items being used by these laboratories. All represent great quality and will serve you for many years.

INVESTORS SPECIAL

COMPLETE SILVER SET OF ROOSEVELT DIMES

We acquired a lovely roll set of Roosevelt Dimes struck from 1946 through 1964-D. We are offering these on a first come first served basis at a Super Special Investors price of just $135.00 each. We will even include a deluxe album to house the set. What is particulary interesting about the set is that these are original rolls with each piece in Choice Uncirculated condition. Even the early "S" Mint coins such as the 1949-S are really wonderful.

We think that while prices are depressed it is time to buy. The Roosevelt series is depressed because the values at this time are too low to slab. We think that this will change in the future thus making the set worth more money. Act quickly as we can only supply 50 sets.

Foreign Gold, Crowns and Minors Mail Bid Sale

Closing Date May 30, 1990 4:00 P.M.

We are pleased to present this unusual collection of foreign gold, crowns and minors which will be offered for sale by mail bid only. What is particularly exciting is that this collection of quality material is seldom offered to the collecting community since the average price per lot is less than can be offered in regular floor bid sales. Thus we have a collection certain to attract considerable attention and we expect spirited bidding. Expect to devote a considerable amount of time examining the list. Grading has been accomplished with normal conservative European standards. For those of you who will be in the southern California area, please feel free to call for a reservation to view those lots which interest you. Lots will be available for viewing beginning April 30th through May 30th, 1990.

The collection is considered of major importance thus calling for a significant amount of time between circulation and closing of the sale. Usual auction rules apply as indicated below. California collectors will be billed for sales tax on sales under $1000.00. We will close all lots at a slight advance over the next highest mail bid, thus allowing bidders to obtain lots at prices less than their top bid where ever possible.

Mail Bid Rules

1. A 10% buyers charge will be added to the hammer price of each lot. This applies to all lots regardless of bidder's affiliation with any group or organization.

2. No Buy bids or unlimited bids accepted.

3. Payment of all sales are strictly in U.S. funds payable through a bank in the U.S.

4. Those who have not established credit with Superior must furnish suitable credit information or a 25% deposit with their bids.

5. Lots are sold ''as is'' and will not be broken up. This is not an approval sale. Lots may not be returned except for reasons of genuineness or errors in catalogue descriptions. Lots viewed by successful bidder may not be returned except for purposes of genuineness.

6. Claims where purchaser desires to return lot, must be made in writing within 10 days of receipt of merchandise. All returns must be in their original unopened container.

7. Auctioneer cannot be responsible for errors in bidding. Buyer's charge is in addition to the amount of bid.

8. Postage, handling and insurance will be added to the invoice price. Sales tax will be added to all applicable invoices in the State of California.

9. Grades represented in this catalogue are the option of the cataloguer. No subsequent representation of a grade by a third party grading service will qualify a lot for return.

The Thirty Pieces of Silver

Of all the biblical references to coins, the "thirty pieces of silver" paid to Judas Iscariot for his betrayal of Christ is perhaps the best known. Throughout numismatics, one of the coins most in demand by collectors who cherish their New Testament is an example of the famous "thirty pieces of silver," also known as a "Shekel of Tyre."

It is true that each fresh re-reading of this painful episode is enough to make even the most avid collector feel, for the moment, some of the same disgust for money and its evil power which Judas himself felt later when, in his revulsion at what he had done, "He cast down the pieces of silver...and went and hanged himself." (Matthew 27:5). Throughout history there has been a persistent desire to hold one of these historic treasures in one's hand, recalling the greatest betrayal in all history.

The obverse of these silver shekels are idolatrously adorned with the laureated head of Melqarth, a Phoenecian god, while the reverse exhibits a proud eagle sitting on a ship's prow. A palm branch appears in the backround behind the eagle with the legend in Greek around reading, "Tyre Sacred and Inviolable Sanctuary." These are dated with Phoenecian dates and were struck in the First Century B.C. As an added historic note, the silver shekel of Tyre, because of its high grade of silver, was the only coin that the Jews were allowed to use for paying temple tax.

It is interesting to note that the thirty silver shekels' monetary value was (to the best of our knowledge) only a little over $30 in today's American money! For treachery so profound and so far-reaching it was a price minute beyond belief.

The silver Shekel of Tyre is represented by the following biblical references:

- It is the only coin accepted as payment for the annual Jewish temple tax, according to the Talmud (tractate Skekalim 1:7).
- It was therefore the coin found in the mouth of a fish, since this coin was to pay the temple tax for Jesus and St. Peter (Matthew 17:24-27).
- Most notorious of all, it was surely the coin used to pay Judas Iscariot his 30 pieces of silver for betraying Jesus (Matthew 26:27-9).

Each silver Shekel of Tyre is Superb E.F. and lustrous.

SILVER TETRADRACHMS MINTED IN THE HOLY LAND

Didius Julianus Buys Roman Empire At Auction!
Roman World Ruled By A Woman!
Aged Military Emperor Dies At York!
Christians Continue To Be Persecuted!
Caracalla Murders Own Brother!

Thus the A.D. late 2nd - early 3rd century headlines would have read, if there had been newspapers and enough people to read them. These coins do bear mute testimony to these and other events which shaped and shook the Roman empire during these difficult times. Our coins are virtually Mint State silver tetradrachms minted in the Holy Land and surrounding territories. Reminiscent of earlier Phoenician shekels, they boldly portray the emperor's portrait on the obverse and a majestic eagle on the reverse.

These thick, large coins had tremendous buying power in ancient times, much different than our near-worthless coins jingling in our pockets today. More like hundred-dollar bills, these coins were treasured and dreamt about 1800 years ago as they are today by those fortunate enough to possess one. Part of a relatively small hoard recently unearthed in the Middle East, they represent "the pick of the lot," being lustrous and virtually in mint condition. It is quite possible that these coins were part of a group minted to pay troops, as during the Severan dynasty there was much fortification and strengthening of military might at the frontiers.

Selected silver tetradrachms, subject to limited availability, minted during the Severan Dynasty in virtually Mint State condition are proudly offered at the following prices:

The Ottoman Empire

The Terror of Christian Europe and the Empire that Helped Forge the Events of Modern History

The beginnings of the Ottoman are shrouded in legend and few historical facts are known about them before A.D. 1300. The descendants Empire of the Ottomans most probably were Nomadic people from Central Asia who were pushed into Asia Minor by other Nomadic tribes. From the very beginning they were at odds with the Byzantine Empire, the direct decendants of the Roman Empire of Caesar and Constantine the Great. This conflict finally culminated in the famous siege and sack of the Byzantine capital of Constantinople by Mehmed II, full development of the Renaissance in 15th Century Europe for many scholars, and ideas hidden in the East now found refuge and fertile ground in Europe to further develop and grow.

By the middle of the 16th century the Mediterranean Sea almost became an Ottoman lake, with just the areas covered by present day Spain, France, and Italy not being under Ottoman control. To help keep their foes at bay the Ottomans created an an elite military force called the Janissaries, made up of the children of the subject Christian population from the Balkans, brought up as Muslims, and trained as ferocious and invincible soldiers.

With such invincible foes as the Ottomans, the Europeans had to look for alternate routes to the East. This spurred the Portuguese explorers to find a sea route to India and the Orient, which opened up the Age of Discovery in Europe and the landing in the New World by Christopher Columbus.

The famous siege of Vienna in A.D. 1683, when the Ottomans were repulsed, proved to be the turning point in Ottoman history. For the next 200 years the Ottoman Empire suffered a slow decline but nonetheless played an important role in the political and military treaties and power struggles of Europe and the Middle East. The end of the once all-powerful Ottoman Empire, now called the "Sick Man of Europe," came after the close of World War 1.

It should be noted that it was during the Ottoman rule that the roots of the foundation of the modern state of Israel came into play with religious tolerance being practiced by Ottomans. When the British captured Jerusalem in A.D. 1917, the Zionist movement was well under way.

We are pleased to offer golden treasures from this turbulent period. Each treasure is a gold Dinar minted by the Ottoman sultan during the 18th Century. None of these coins have images on them as it would have been sacrilegious. The Koran teaching specifically made this point. Thus, the Muslims, on their coins, developed the art of calligraphy to the height of perfection.

Each gold coin has on it the tughra, or royal monogram of the ruling Ottoman sultan. This tughra is similar to many monograms seen on Scandinavian coins. The Ottoman tughra usually contains the title "Khan" (lord), the sultan's father's name, and the epithet, "El Muzaffer Daima" (the Ever Victorious). In addition, each coin has inscribed on it in Arabic the mint of manufacture, usually Istanbul or Cairo, and the reigning sultan's accession date. These beautiful coins are lustrous and are as struck over 200 years ago

AUTHENTIC GOLD NUGGETS

Always a popular item yet so seldom encountered are these gold nuggets. These were obtained from a mining project in Northern California and held by the seller for many many years until the most recent upward movement in the price of gold caught their fancy to sell.

When we have attempted to locate nuggets of this type in the past they in most cases were simply not available. When we have seen small amounts available they usually cost between 3 and five times the price of gold. Remember these are high quality nuggets.

Our supply of gold nuggets is limited to just 25 ounces. They go out at prices so fantastic that we must limit purchases and sorry the offer is only available to our regular readers who have an existing account number registered with us. Once supply is gone, sorry but it's all over.

We will offer these genuine California gold nuggets by their actual weight. For purposes of sale we use the standard "penny wieght" basis of which there are 20 penny weights to the ounce.

1 Penny Weight $34.50
Order No. 01-048

5 Penny Weights (¼ oz.) $149.50
